

5
Ways

**Juvenile Probation Administrators
Can Use Public Health Data and Resources to Address
Substance Use Disorders**

A Presentation Developed by the:  NATIONAL COUNCIL OF
JUVENILE AND FAMILY COURT JUDGES

- The development of this presentation was supported with funding from the Bureau of Justice Administration’s (BJA’s) Comprehensive Opioid, Stimulant, and Substance Abuse program and the Office for Victims of Crime (OVC).
- Points of view or opinions in this presentation are those of the presenter(s) and do not necessarily represent the official position or policies of the the BJA or the OVC.

Purpose

- Present the NCJFCJs “5 Ways Juvenile Probation Administrators can use Public Health Data and Resources to Address SUDs”
- Begin a discussion about how juvenile probation stakeholders can use public health data related to substance use and abuse at the individual community level as well as the aggregated national level.

Learning Objectives

Understand the value of public health indicators to inform probation efforts

Identify the ways public health indicators can be used to support the goals of your probation department

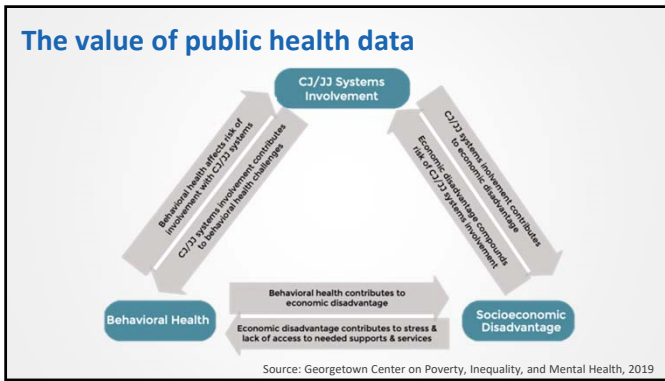

Assess the data and resources available in your jurisdiction at the local level

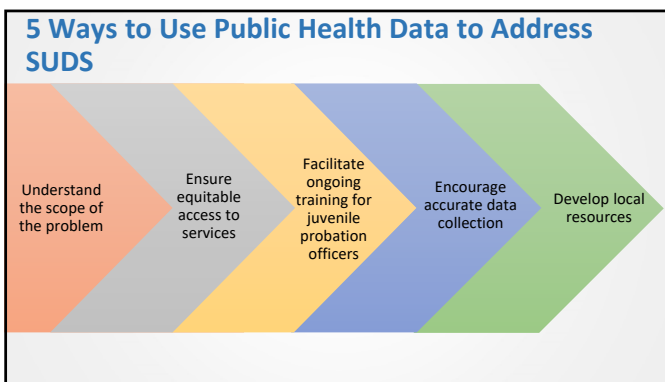

How often do you use data in your work?

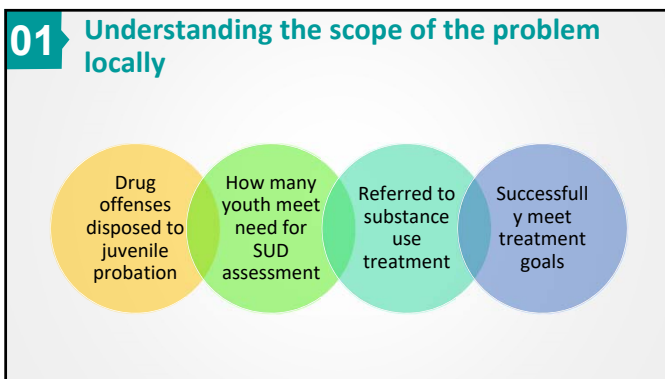

Polling Question

The role of probation administrators

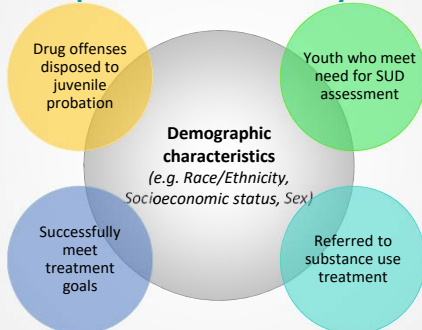

Understand the scope of the problem for court involved youth and families

- 13% of the juvenile court caseload was the result of a drug offense in 2018
- 31% of child maltreatment reports in 2018 indicated that the child's primary caregiver(s) had a drug abuse problem
- 36% of the children entering foster care in 2018 were identified to have a primary caregiver with a drug abuse problem
- 2% children entering foster care in 2018 were identified to have a drug abuse problem
- 27079 infants in 45 US states were referred to CPS agencies as infants with prenatal substance exposure in 2018.

02 Ensure equitable access locally

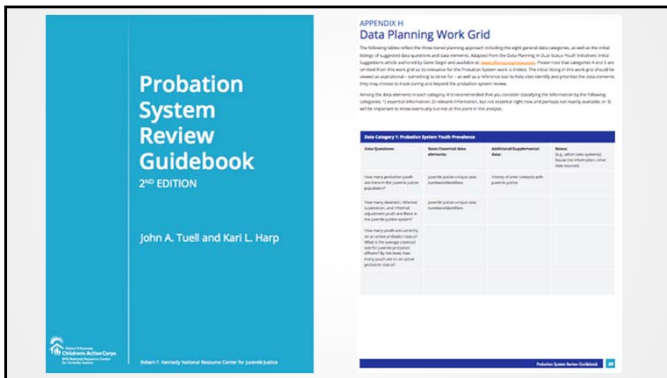

03 Facilitate ongoing training for juvenile probation officers

04 Encourage accurate data collection

05 Develop local resources

- Collaborate with judges and stakeholder agencies
- Focus on alcohol and marijuana
- Evidence-based programs
- National clearinghouses with EBP information

Preventing Addiction	Treating Addiction	Supporting Recovery	Reduce Overdoses
Community Education _____	Harm Reduction _____	Peer Navigation/Support _____	NARCAN Availability _____
System Education _____	Medication Assisted Treatment _____	Professional Services _____	911 Programs _____
Family Education _____	Outpatient _____	Volunteer Services _____	Law Enforcement _____
Individual Education _____	Inpatient _____	Community Supports _____	Data Use and Dissemination _____

How do you plan to use public health data in your jurisdiction?
